

Dark Tan™ & Dark Tan™ Plus

Wolff System **Dark Tan™** tanning lamps are power-packed, economical products. 100W non-reflector lamps are strong enough to find application in 12 or 14 minute sunbeds, with considerable UVB and effective measures of UVA. With rated service life of 500 hours and available in standard F71/Bi-pin and F73/RDC configurations, **Dark Tan™** will satisfy the most demanding tanners and salon professionals.

Dark Tan™ Plus sunlamps have all of the quality and service life features of the **Dark Tan™** family, with enhanced UVB for shorter sessions and upgrades to your existing line-up.
